Assessment Test 3

Time

3h

Intro

In this test there is only one level (Level 1).

Don't change any other code than:

- SQL-assignement.sql

- CSharpMethods.cs
- EfMethods.cs

How to submit

When you're done submit *only* the following three files:

- SQL-assignement.sql
- CSharpMethods.cs
- EfMethods.cs

Level 1

SQL:

- Open **SQL-assignement.sql**.
- You should add SQL-code here (insert, select, delete) to add some people and political parties and display info about the political parties
- Write your solution in *SQL-assignement.sql* at (1), (2), (3) and (4)
- Compare your result with *SQL-output.png*

C#:

- Create the method *SumEdges* in **CSharpMethods.cs** so all tests in *Level1CSharpTest* pass (look at the file for instructions)
 - test1
 - test2
 - test3
 - test4
 - test5
 - test6

Entity Framework:

- Create methods in **EfMethods.cs** so the test in *Level1Tests.cs* will pass:
 - add_parties_and_make_queries
